

Dear parents/guardians,

During the school closure, teachers will be assigning worksheets to be completed that fall in line with the lessons your son/daughter would have been exposed to had schools been open. In addition to the daily assignments, teachers will be assigning online learning resources to enhance lessons with videos or games. We have attached some of the online learning resources teachers will be assigning. Some of these websites offer free accounts parents and students can sign up in order to access all the content available.
